AB	Lightwt. plate construction materials with high strength, sound- and heat-insulating properties are prepd. without expanded polystyrene. The lightwt. plate construction materials are prepd. by mixing 50 vol.% of an artificial lightwt. aggregate, 15 vol.% of vermiculite, 2 vol.% of ceramic aggregates, 1 vol.% of <u>fly ash</u> , 2 vol.% of <u>zeolite</u> , 30 vol.% of <u>cement</u> and adding 40-60% of vol. of <u>cement</u> in water and then heating to 60.degree. after molding and finally steam curing for a day.
